Experience

Web Developer **Jan 2024 – Present**
G-Rank Digital Service Pvt. Ltd. *Hyderabad, India*

- Built and deployed 10+ responsive web applications using HTML5, CSS3, JavaScript, jQuery, and Bootstrap for client requirements, with attention to mobile responsiveness and browser compatibility.
- Worked on client websites from development through updates and deployment, including responsive UI changes, website revamps, content migration, and legacy code improvements.
- Integrated Google reCAPTCHA, dynamic QR codes, PHP mail workflows, and CRM systems to support secure forms, brochure delivery, and lead capture.
- Connected web forms with CRM platforms and REST APIs, helping sales teams receive and manage website leads with less manual data entry.
- Used W3C Validator, Google PageSpeed Insights, and Semrush to identify website issues and improve page performance, technical quality, and SEO.
- Maintained WordPress websites through plugin updates, theme customization, content deployment, and ongoing R&D.

Projects

Responsive Multi-Page Business Website **2024**

- Developed a responsive multi-page client website using HTML5, CSS3, Bootstrap, and JavaScript, with PHP mailer and Google reCAPTCHA for contact and brochure forms.
- Reduced page-loading overhead through image compression and asset optimization, improving the PageSpeed score by 30%.

CRM-Integrated Lead Capture Portal **2024**

- Built a lead capture portal that sends website form data to a CRM through a REST API, automating sales-pipeline updates and removing manual data entry.
- Added client-side JavaScript validation and server-side PHP validation to improve the reliability and security of form submissions.

Education

Bachelor of Technology (B.Tech), Mechanical Engineering **2019 – 2023**
Rajiv Gandhi University of Knowledge Technologies (RGUKT IIIT Basar) *Nirmal, Telangana*
CGPA: 7.6 / 10
